Departmental inventories are comprised of such items as classroom and laboratory supplies, teaching materials, and office supply items, which are consumed in the teaching/work process. These inventories are normally expensed when purchased and therefore are not reported on the Statement of Net Assets.

Merchandise Inventories Those inventories maintained which are available for resale to individuals and/or other University departments and are not expensed at the time of purchase. These inventories are reported on the Statement of Net Assets and are valued at cost using either the moving average method or the first-in, first-out method.

5. STATE RETIREMENT PROGRAMS

Florida Retirement System Most employees working in regularly established positions of the Universities are covered by the Florida Retirement System, a State-administered cost-sharing multiple-employer public employee defined benefit retirement plan (Plan). Plan provisions are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes, and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code, wherein plan eligibility, contributions, and benefits are defined and described in detail. Participating employers include all State departments, counties, district school boards, and community colleges. Many municipalities and special districts have elected to be participating employers. Essentially, all regular employees of participating employers are eligible and must enroll as members of the Plan.

The Florida Legislature has reduced the vesting period from 10 to 6 years of service. Any member employed in a regularly established position on (as of) July 1, 2001 with a total of 6 or more years of creditable service will be considered vested. Former members who are not employed with a participating Plan employer on July 1, 2001, must return to covered employment for one year to become eligible for the six-year vesting provision. An exception to this one-year requirement applies to former members who are within one year of vesting under the pre-2001 vesting requirements. These members will only be required to work the lesser of one year or the amount of time it would have taken to vest in their class of membership prior to July 1, 2001. 5. STATEMENT RETIREMENT PROGRAMS, (cont'd)

The State of Florida establishes contribution rates for Plan members. During fiscal year 2005-2006, contribution rates were as follows:

| Class or Plan | Percent of Gross Salary | |
|---|-------------------------|--------------|
| | Employee | Employer (A) |
| Florida Retirement System, Regular | 0.00% | 7.83% |
| Florida Retirement System, Senior Management | 0.00% | 10.45% |
| Florida Retirement System, Special Risk | 0.00% | 18.53% |
| Teacher's Retirement System, Plan E | 6.25% | 11.35% |
| Deferred Retirement Option Program | 0.00% | 9.33% |
| Florida Retirement System, Reemployed Retiree | (B) | (B) |

Notes: (A) Employer rates include the post-employment health insurance supplement of 1.11% and .05% for administrative costs of the Public Employee Optional Retirement Program. (B) Contribution rates are dependent upon retirement class or plan in which reemployed.

The Universities' liability for participation in the Plan is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the University. The University's contributions made to the Plan for the fiscal years (last three years) ended June 30, 2004, June 30, 2005, and June 30, 2006 totaled \$71,755,988, \$71,838,670 and \$76,989,266, respectively, which were equal to the required contributions for each fiscal year.

State University System Optional Retirement Program Pursuant to Section 121.35, Florida Statutes, the Florida Legislature created an Optional Retirement Program (Program) for eligible University instructors and administrators. The Program is designed to aid Universities in recruiting employees by offering more portability to employees not expected to remain in the Florida Retirement System for six or more years. The Program is a defined contribution plan, which provides full and immediate vesting of all contributions submitted to the participating companies on behalf of the participant. Employees in eligible positions can make an irrevocable election to participate in the Program, rather than the Florida Retirement System, and purchase retirement and death benefits through contracts provided by certain insurance carriers. The employing University contributes on behalf of the participant 10.43 percent of the participant's salary. A small amount remains in the Optional Retirement Program Trust Fund for administrative costs. The remaining contribution is invested in the company or companies selected by the participant to create a fund for the purchase of annuities at retirement. The participant may contribute, by salary deduction, an amount not to exceed the percentage contributed by the University to the participant's annuity account.

There were 16,921 University participants during the 2005-2006 fiscal year. Required contributions made to the Optional Retirement Program in the 2005-2006 fiscal year totaled \$169,137,324, including \$56,625,841 from employee contributions.

Public Employee Optional Retirement Program Pursuant to Section 121.4501, Florida Statutes, the Florida Legislature created a Public Employee Optional Retirement Program (PEORP), also known as the Florida Retirement System (FRS) Investment Program. The PEORP is a defined contribution plan, sponsored by the State of Florida, available as an option to the FRS defined benefit plan, and is self-directed by the employee. University employees already participating in the State University System Optional Retirement Program or the DROP are not eligible to participate in this program. A retirement account is established for each employee who selects this option and an employer contribution is directed to the individual account. The employees have the responsibility of selecting how their funds are invested within the approved set of investment choices and may take their funds when they leave the Florida Retirement System. With each pay period, the University contributes a percentage (same as the FRS rate) of the participating employees' earnings to an annuity plan. Pension benefits are determined by the dollars in the account at the time of retirement.

There were 3,019 participants during the 2005-2006 fiscal year. Required contributions made to the PEORP totaled \$7,396,571.

5. STATEMENT RETIREMENT PROGRAMS, (cont'd)

Institute of Food and Agricultural Sciences Supplemental Retirement In 1984, the Florida Legislature enacted the Institute of Food and Agricultural Sciences Supplemental Retirement Act to provide a supplement to the monthly retirement Benefit being paid under the Federal Civil Service Retirement System to retirees of the Institute of Food and Agricultural Sciences (IFAS) at the University of Florida. The supplement is designated for IFAS cooperative extension employees employed before July 1, 1983, who are not entitled to benefits from either a state-supported retirement system or social security, based on their service with IFAS. It was intended to compensate these employees for the difference between Civil Service benefits and the benefits a Florida Retirement System member receives, which include a social security benefit. No additional persons can become eligible for this supplement. Employee contributions were \$470,406 and employer contributions were \$1,784,645. For fiscal year 2005-2006, the University's covered payroll was \$5,292,716 and there were 83 employees covered.

Other Retirement Programs Other retirement programs include the Florida Teacher's Retirement System and the U.S. Civil Service Retirement System. Nineteen employees were covered by the Florida Teacher's Retirement System during fiscal year 2005-2006. Employer contributions were \$176,343, and employee contributions were \$66,118. Fifteen employees were covered by the U.S. Civil Service Retirement System during fiscal year 2005-2006. Employer contributions were \$77,605, and employee contributions were \$77,605.

To assist retirees of all State-administered retirement systems in paying health insurance costs, the Florida Legislature established the Retiree Health Insurance Subsidy (HIS). During the 2005-2006 fiscal year, the HIS program was funded by required contributions consisting of (rate) assessed against the payroll for all active employees covered in State-administered retirement systems. This assessment is included in the Florida Retirement System contribution rates

Eligible retirees, spouses, or financial dependents under any State-administered retirement system must provide proof of health insurance coverage which can include Medicare. During the 2005-2006 fiscal year, participants received an extra \$5 per month for each year of creditable service completed at the time of retirement; however, no eligible retiree or beneficiary may receive a subsidy payment of more than \$150 or less than \$30. If contributions fail to provide full subsidy benefits to all participants, the subsidy payments may be reduced or canceled.

6. POSTEMPLOYMENT BENEFITS

Pursuant to Section 112.363, Florida Statutes, the Florida Legislature established the Retiree Health Insurance Subsidy (HIS) to assist retirees of all State-administered retirement systems in paying health insurance costs. During the 2005-06 fiscal year, the HIS program was funded by required contributions consisting of 1.11% assessed against the payroll for all active employees covered in State-administered retirement systems. This assessment is included in the Florida Retirement System contribution rates.

Eligible retirees, spouses, or financial dependents under any State-administered retirement system must provide proof of health insurance coverage, which can include Medicare. During the 2005-06 fiscal year, participants received an extra \$5 per month for each year of creditable service completed at the time of retirement; however, no eligible retiree or beneficiary may receive a subsidy payment of more than \$150 or less than \$30. If contributions fail to provide full subsidy benefits to all participants, the subsidy payments may be reduced or canceled.
