2014-2015

The Education and General (E&G) budget entity reflects the allocation of funds appropriated by the 2014 Legislature and includes previously appropriated trust funds. For 2014-2015 there are three sources of state funding in the GAA: the General Revenue Fund, the Educational Enhancement Trust Fund (Lottery), and the Phosphate Research Trust Fund (Florida Polytechnic University).

For the 2014-2015 academic year, base undergraduate student tuition will remain at $105.07 per student credit hour.

The 2014-2015 funded enrollment plan increases slightly from the previous year. Funded enrollment for 2013-2014 was 194,673 full-time equivalent (FTE) students and medical professionals, while 2014-2015 funded enrollments are 195,480 FTE students and medical professionals.

During the 2014-2015 academic year, eleven of the state universities will be charging a tuition differential fee. Tuition differential collections are expected to provide approximately $246 million for the university system, with revenues to be utilized for need-based financial aid and to support undergraduate education through investments in faculty and advisors, additional course offerings and course sections, and other undergraduate

These resources are generated primarily from the activity and service fee which each university is authorized to charge its students as a component of the fee schedule. The level of the fee varies by university, depending on the purposes and programs for which it is intended to support. Activities commonly supported by these revenues include student government, cultural events, organizations, intramural/club sports, etc. The level of revenue varies among universities since the operating philosophies vary by campus. For example, a portion of UF's revenue is deposited into the auxiliary enterprises budget entity in support of the Reitz Union. Conversly, FSU operates its student union within the student activity budget.

Concession revenues are royalties that are generated from various vending machines located throughout the campus of the universities. Since the methods of operation vary among universities, the level of revenues differ. For example, a university may have fewer vending machines because strategically located food service units serve most of its needs. In turn, revenues generated from concession actitivities are mainly used to pay the cost of operating the vending machines on campus. These resources are also allocated to various academic, administrative, and student units on campus to fund a variety of activities such as student recruitment and retention programs; faculty, staff and student recognition programs and various organizations and events.

The budgets for the University of Florida, the University of South Florida, the University of Central Florida, and Florida International University include self-insurance programs (authorized by Section 1004.24 F.S.) as directed by the respective self-insurance councils and the captive insurance companies. These activities are supported by fees charged to the insured individuals and entities (primarily medical faculty and institutions).
